**DETAILED ACTION**

***Election/Restrictions***

1. Newly submitted claims 19-22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claimed product of a practice and training towel clearly can be used in a materially different process as merely a drying towel. Also, see MPEP § 806.05(h).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-5, 7, 8, 11-13 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Shofner for the reasons set forth in the previous Office action.

***Response to Arguments***

4. Applicant's arguments filed 14 October 2004 have been fully considered but they are not persuasive.

The comments regarding claims 1-5, 7, 8, 11-13 and 16 are repeated. No specific arguments have been directed against the rejection of the claims. The Shofner mat is inherently capable of being folded and placed on the ground as set forth in amended claims 1 and 2. It is also noted that functional statements do not define any structure and accordingly cannot serve to distinguish the claims, which are not process claims, from the reference. Only structural language is determinative of the metes and bounds of a patent claim. Functional recitations, standing alone, cannot be relied upon to distinguish over the prior art.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
